

Cloud calling comes in all shapes and sizes.

Find the perfect balance for your organization.

Cloud calling is the more secure, scalable way to serve your business communication needs. But that doesn't mean you have to completely abandon your existing Private Branch Exchange (PBX) infrastructure. See how you can integrate cloud features to create the perfect balance for your unified communications (UC) needs—whether on-premises, in the cloud, or a mix of both.

Work smarter with **Webex Calling**.

It's not an all-or-nothing solution. Find the balance that's right for you.

1

Evaluate your current system for costs and agility.

2

Consider your calling and collaboration needs today and in the future.

3

Find a partner that addresses your major concerns.

4

Decide which cloud-based services make sense now.

5

Plan how to integrate cloud-based apps into on-premises platforms.

6

Create a long-term plan for your organization.

Cisco Webex Calling not only enables you to upgrade your PBX network with a secure cloud solution, but also extends your capability to meet future collaboration needs.

Integrating cloud-based applications with your existing on-premises platforms requires the right approach
